

Guidelines for Using Golf Trolleys

Trolleys should keep to the paths or rough where possible.

Trolleys should have wide wheels (approximately 3" to 4

Trolleys should be kept 15 to 30 feet from the edges of tees and greens. If these have not been roped off.

Trolleys should be directed around greenside bunkers and should **never** be taken in the narrow gap between the green and surrounding bunkers.

Trolleys should never be taken across excessively wet areas.

There could be occasions when it will be necessary for the safety of the staff and the users of the course to restrict the use of trolleys due to the course and weather conditions. This will be declared by the green keeping staff, where conditions: Present Health and Safety issues, or Will lead to excess damage to the course

All exemptions to a Trolley ban have to be cleared through the Pro. Shop and will only be granted if carrying will cause you physical harm.
